Isaiah Berlin (1909-97) was recognized as Britain's most distinguished historian of ideas. Many of his essays discussed thinkers of what this book calls the 'long Enlightenment' (from Vico in the eighteenth century to Marx and Mill in the nineteenth, with Machiavelli as a precursor). Yet he is particularly associated with the concept of the 'Counter-Enlightenment', comprising those thinkers (Herder, Hamann, and even Kant) who in Berlin's view reacted against the Enlightenment's naïve rationalism, scientism and progressivism, its assumption that human beings were basically homogeneous and could be rendered happy by the remorseless application of scientific reason. Berlin's 'Counter-Enlightenment' has received critical attention, but no-one has yet analysed the understanding of the Enlightenment on which it rests. Isaiah Berlin and the Enlightenment explores the development of Berlin's conception of the Enlightenment, noting its curious narrowness, its ambivalence, and its indebtedness to a specific German intellectual tradition. Contributors to the book examine his comments on individual writers, showing how they were inflected by his questionable assumptions, and arguing that some of the writers he assigned to the 'Counter-Enlightenment' have closer affinities to the Enlightenment than he recognized. By locating Berlin in the history of Enlightenment studies, this book also makes a contribution to defining the historical place of his work and to evaluating his intellectual legacy.

At the end of World War II, Andrew Tully was one of three Americans allowed to enter Berlin as a guest of a Russian artillery battalion commander. He spent the next seventeen years gathering eye-witness accounts, collecting war diaries and letters, and reading over one hundred books in order to write this gripping and comprehensive account about the fall of Berlin.

This book explores the politics of place marketing and the process of 'urban reinvention' in Berlin between 1989 and 2011. In the context of the dramatic socio-economic restructuring processes, changes in urban governance and physical transformation of the city following the Fall of the Wall, the 'new' Berlin was not only being built physically, but staged for visitors and Berliners and marketed to the world through events and image campaigns which featured the iconic architecture of large-scale urban redevelopment sites. Public-private partnerships were set up specifically to market the 'new Berlin' to potential investors, tourists, Germans and the Berliners themselves. The book analyzes the images of the city and the narrative of urban change, which were produced over two decades. In the 1990s three key sites were turned into icons of the 'new Berlin': the new Postdamer Platz, the new government quarter, and the redeveloped historical core of the Friedrichstadt. Eventually, the entire inner city was 'staged' through a series of events which turned construction sites into tourist attractions. New sites and spaces gradually became part of the 2000s place marketing imagery and narrative, as urban leaders sought to promote the 'creative city'. By combining urban political economy and cultural approaches from the disciplines of urban politics, geography, sociology and planning, the book contributes to a better understanding of the interplay between the symbolic 'politics of representation' through place marketing and the politics of urban development and place making in contemporary urban governance.

The Man From Berlin In Your Pocket

The field of rhetoric and composition has, at last, received a long-lost message delivered in the form of Victor J. Vitanza's seminar on James A. Berlin. In this book that is an untext on Berlin's work and its impact on the field, Vitanza acquaints us with Berlin by virtue of many Berlins, in multiplicity, and via the figure of an "excluded third" that wants to deliver to us a new message that was undelivered from Berlin to us, and from Vitanza to Berlin, after Berlin's untimely death in 1994. A seminar on a seminar on the teaching of writing . . . it is teaching all the way down. They met at the historical NEH seminar at Carnegie Mellon in 1978. Their friendship and rhetorical dialogues spanned only sixteen years, but Vitanza continues the conversation through the seminar, through this book (rife with reflections and, yes, homework for his readers), and through our reception of it. It is up

to us now to carry it forward. As Vitanza writes, "I would prefer not to not think that what remains unsaid stays undelivered."

Sinclair McKay's portrait of Berlin from 1919 forward explores the city's broad human history, from the end of the Great War to the Blockade, rise of the Wall, and beyond. Sinclair McKay's Berlin begins by taking readers back to 1919 when the city emerged from the shadows of the Great War to become an extraordinary by-word for modernity—in art, cinema, architecture, industry, science, and politics. He traces the city's history through the rise of Hitler and the Battle for Berlin which ended in the final conquest of the city in 1945. It was a key moment in modern world history, but beyond the global repercussions lay thousands of individual stories of agony. From the countless women who endured nightmare ordeals at the hands of the Soviet soldiers to the teenage boys fitted with steel helmets too big for their heads and guns too big for their hands, McKay thrusts readers into the human cataclysm that tore down the modernity of the streets and reduced what was once the most sophisticated city on earth to ruins. Amid the destruction, a collective instinct was also at work—a determination to restore not just the rhythms of urban life, but also its fierce creativity. In Berlin today, there is a growing and urgent recognition that the testimonies of the ordinary citizens from 1919 forward should be given more prominence. That the housewives, office clerks, factory workers, and exuberant teenagers who witnessed these years of terrifying—and for some, initially exhilarating—transformation should be heard. Today, the exciting, youthful Berlin we see is patterned with echoes that lean back into that terrible vortex. In this new history of Berlin, Sinclair McKay erases the lines between the generations of Berliners, making their voices heard again to create a compelling, living portrait of life in this city that lay at the center of the world.

Berlin: The Story of a Battle Catapult

The true story of an East German couple's escape across the Iron Curtain and the international crisis that followed is "equal to any fictional thriller" (San Francisco Chronicle). In August 1978, the Iron Curtain still hung heavily across Europe. To escape from oppressive East Berlin, an East German couple—Hans Dettlef Alexander Tiede and Ingrid Ruske—hijacked a Polish airliner and diverted it to the American sector of West Berlin. Along with the couple, several passengers spontaneously defected to the West, and were welcomed by US officials. But within hours, Communist officials reminded the West of the anti-hijacking agreements in the Warsaw Pact, and thus the fugitives were arrested by the US State Department. Thirty-four years after World War II, the United States built a court in the middle of West Berlin to try the hijacking couple. Former NJ district attorney, now a judge, Herbert J. Stern was appointed the "United States Judge for Berlin." What followed was a trial full of maneuvers and strategies that would put Perry Mason to shame, and answered the question: what is allowed to people seeking freedom? Judgment in Berlin, also a major motion picture starring Martin Sheen and Sean Penn, is unsurpassed as a true-life suspense story, with its vivid accounts of daring escapes, close calls, diplomatic intrigue, and dramatic courtroom confrontations. The original edition won the Freedom Foundation Award, and this updated edition includes a new introduction from author and trial judge Herbert J. Stern.

Building Regulation by Districts, the Lesson of Berlin Berghahn Books

Between 1941 and 1945, thousands of German Jews, in fear for their lives, made the choice to flee their impending deportations and live submerged in the shadows of the Nazi capital. Drawing on a wealth of archival evidence and interviews with survivors, this book reconstructs the daily lives of Jews who stayed in Berlin during the war years. Contrary to the received wisdom that "hidden" Jews stayed in attics and cellars and had minimal contact with the outside world, the author reveals a cohort of remarkable individuals who were constantly on the move and actively fought to ensure their own survival.

Berlin in the early 1990s, right after the fall of the Berlin Wall: this is the place to be. Berlin-Mitte, the central district of the city, with its wastelands and decaying houses, has become the centre of a new movement. Artists, musicians, squatters, club owners, DJs and ravers are reclaiming the old city centre and bringing it back to life. This interregnum between two systems – the collapse of the old East Germany, the gentrification of the new Berlin – lasts only a few years. West Berliners, East Berliners and new residents from abroad join together to create music, art and fashion, to open bars and clubs and galleries, even if only for a few weeks. In the months following the fall of the Wall, there is a feeling of new

beginnings and immense possibilities: life is now, and to be in the here and now feels endless. The phrase 'temporary autonomous zone' is circulating, it describes the idea – romantic and naive but, in the circumstances, not absurd – that, at a certain moment in history, you can actually do whatever you want. Ulrich Gutmair moved to West Berlin as a student in autumn 1989: two weeks later the Wall came down. He spent the next few years studying during the day in the West and exploring the squats, bars and techno clubs in the East at night. He fell in love with House and Techno and raved at Tresor, Elektro, Bunker and many other places that in the meantime have almost disappeared from collective memory. Ten years later he decided to write a book about that period in between, when one regime was brought down and a new one wasn't yet established. When utopia was actually a place to inhabit for a moment.

Long-listed for the Andrew Carnegie Medal for Excellence * A New York Times Book Review Editor's Choice "Here in Berlin is one of the most interesting new works of fiction I've read . . . The voices are remarkably distinct, and even with their linguistic mannerisms . . . mark them out as separate people . . . [This novel] is simply very, very good." —The New York Times Book Review Here in Berlin is a portrait of a city through snapshots, an excavation of the stories and ghosts of contemporary Berlin—its complex, troubled past still pulsing in the air as it was during World War II. Critically acclaimed novelist Cristina García brings the people of this famed city to life, their stories bristling with regret, desire, and longing. An unnamed Visitor travels to Berlin with a camera looking for reckonings of her own. The city itself is a character—vibrant and postapocalyptic, flat and featureless except for its rivers, its lakes, its legions of bicyclists. Here in Berlin she encounters a people's history: the Cuban teen taken as a POW on a German submarine only to return home to a family who doesn't believe him; the young Jewish scholar hidden in a sarcophagus until safe passage to England is found; the female lawyer haunted by a childhood of deprivation in the bombed-out suburbs of Berlin who still defends those accused of war crimes; a young nurse with a checkered past who joins the Reich at a medical facility more intent to dispense with the wounded than to heal them; and the son of a zookeeper at the Berlin Zoo, fighting to keep the animals safe from both war and an increasingly starving populace. A meditation on war and mystery, this an exciting new work by one of our most gifted novelists, one that seeks to align the stories of the past with the stories of the future. "García's new novel is ingeniously structured, veering from poignant to shocking . . . Here in Berlin has echoes of W.G. Sebald, but its vivid, surprising images of wartime Berlin are García's own." —BBC Culture, 1 of the 10 Best Books of 2017 [Isaiah Berlin and the Enlightenment](#) eNet Press

The winner of numerous literary awards including the Anne Frank Prize and Goethe Prize, Cees Nooteboom, novelist, poet and journalist, "is a careful prose stylist of a notably philosophical bent." (J.M. Coetzee, The New York Review of Books) In Roads to Berlin, Nooteboom's reportage, "from a 1963 Khrushchev rally in East Berlin to the tearing down of the Palast der Republik, brilliantly captures the intensity of the capital and its associated layers of memory," The Economist said. The book maps the changing landscape of post-World-War-II Germany, from the period before the fall of the Berlin Wall to the present. Written and updated over the course of several decades, an eyewitness account of the pivotal events of 1989 gives way to a perceptive appreciation of its difficult passage to reunification. Nooteboom's writings on politics, people, architecture, and culture are as digressive as they are eloquent; his innate curiosity takes him through the landscapes of Heine and Goethe, steeped in Romanticism and mythology, and to Germany's baroque cities. With an outsider's objectivity he has crafted an intimate portrait of the country to its present day. From the Hardcover edition. [The Story of Irving Berlin](#) Wilfrid Laurier Univ. A great deal of attention continues to focus on Berlin's cultural and political landscape after the fall of the Berlin Wall, but as yet, no single volume looks at the divided city through an interdisciplinary analysis. This volume examines how the city was conceived, perceived, and represented during the four decades preceding reunification and thereby offers a unique perspective on divided Berlin's identities. German historians, art historians, architectural historians, and literary and cultural studies scholars explore the divisions and antagonisms that defined East and West Berlin; and by tracing the little studied similarities and extensive exchanges that occurred despite the presence of the Berlin Wall, they present an indispensable study on the politics and culture of the Cold War.

The Wednesday Chef cooks her heart out, finds her way home, and shares her recipes with us It takes courage to turn your life upside down, especially when everyone is telling you how lucky you are. But sometimes what seems right can feel deeply wrong. My Berlin Kitchen tells the story of how one thoroughly confused, kitchen-mad perfectionist broke off her engagement to a handsome New Yorker, quit her dream job, and found her way to a new life, a new man, and a new home in Berlin—one recipe at a time. Luisa Weiss grew up with a divided heart, shuttling back and forth between her father in Boston and her Italian mother in

Berlin. She was always yearning for home—until she found a new home in the kitchen. Luisa started clipping recipes in college and was a cookbook editor in New York when she decided to bake, roast, and stew her way through her by then unwieldy collection over the course of one tumultuous year. The blog she wrote to document her adventures in (and out) of the kitchen, The Wednesday Chef, soon became a sensation. But she never stopped hankering for Berlin. Luisa will seduce you with her stories of foraging for plums in abandoned orchards, battling with white asparagus at the tail end of the season, orchestrating a three-family Thanksgiving in Berlin, and mending her broken heart with batches (and batches) of impossible German Christmas cookies. Fans of her award-winning blog will know the happy ending, but anyone who enjoyed Julie and Julia will laugh and cheer and cook alongside Luisa as she takes us into her heart and tells us how she gave up everything only to find love waiting where she least expected it.

During the quarter century between 1780 and 1806, Berlin's courtly and intellectual elites gathered in the homes of a few wealthy, cultivated Jewish women to discuss the events of the day. Princes, nobles, upwardly mobile writers, actors, and beautiful Jewish women flocked to the salons of Rahel Varnhagen, Henriette Herz, and Dorothea von Courland, creating both a new cultural institution and an example of social mixing unprecedented in the German past.

In August 1914, Berlin, Ontario, settled largely by people of German origin, was a thriving, peaceful city. By the spring of 1915 it was a city torn apart by the tensions of war. By September 1916, Berlin had become Kitchener. It began with the need to raise a battalion of 1,100 men to support the British war effort. Meeting with resistance from a peace-loving community and spurred on by the jingoistic nationalism that demanded troops to fight the hated "Hun," frustrated soldiers began assaulting citizens in the streets and, on one infamous occasion, a Lutheran clergyman in his parsonage. Out of this turmoil arose a movement to rid the city of its German name, and this campaign, together with the recruiting efforts, made 1916 the most turbulent year in Kitchener's history. This is the story of the men and women involved in these battles, the soldiers, the civic officials, the business leaders, and the innocent bystanders, and how they behaved in the face of conditions they had never before experienced.
