The history of Achaemenid Persia ù the empire of Cyrus the Great, Darius and Xerxes ù has largely been rewritten in the last thirty years. Inspired by new sources of information, and by a determination to see Persia in its own terms, historians have created a powerful new image of the Persian Empire: tightly organised and resilient, tolerant towards the religions and cultures of its subject peoples, and with kings and queens whose concerns were pragmatic rather than whimsically despotic.

U.S. Industrial Outlook Durham, N.C. : Duke University Press
Over the last decade task-based approaches to language learning and teaching (TBLT) have become a global focus of increased levels of research. Governments around the world have turned to TBLT as a potential solution for curricula that lack authentic and meaningful engagement with language learning and are failing to motivate students as a result. This book focuses on Asia, where this shift has been particularly in evidence. TBLT has often been implemented in top-down approaches to curriculum development, which presents a huge range of challenges at the cultural as well as the pedagogic level. Contemporary Task Based Language Teaching in Asia looks at the drivers, stakeholders and obstacles across the region. Some countries have adapted TBLT to deal with

the local constraints, others have found it hard to apply and many are still in the process of investigating its implementation in their specific contexts. This collection is important to all involved in language development, from curriculum reform to materials development. It assists from programme evaluation to the setting of assessment standards. The chapters cover all aspects of language education across Asia, from primary to tertiary, private and public education, as well as innovations at local, regional and national levels.
