Complete Method for Modern Guitar Hal Leonard Corporation

This book and accompanying video provide a thorough introduction to flamenco guitar. What are the essential elements and techniques of flamenco guitar playing? How does one capture the real

essence of authentic flamenco guitar? These are questions that Juan Martin, celebrated virtuoso flamenco guitarist and teacher, addresses in this first book of a projected three-volume series. The method is designed for the complete beginner and requires no prior knowledge of the guitar or flamenco music. It also provides invaluable insight and material for more advanced players who want to capture the essential sounds, rhythms and emotional power of

true flamenco. The series begins with in-depth demonstrations of how the basic building blocks of flamenco guitar technique are used in actual flamenco music. The material then progresses to a detailed exploration of the individual rhythmic forms - the palos. In this book, the fundamental palos of Solea and Alegrias are presented to emphasize the basic rhythms and provide examples of falsetas - the melodic passages. Martin then shows how to apply these

when collaborating with a dancer and singer. The music is transcribed in standard notation and tablature (cifra), and the online video contain over 3.5 combined hours of explanation and demonstrations. Provides a detailed introduction to basic techniques, using examples of authentic flamenco to show these techniques in action. Then progresses to demonstrations of the Solea and Alegrias, including music for the soloist and the guitar accompanying the

dancing and singing. Includes access to online video.

In addition, 2nd and 3rd positions are thoroughly explored. Every concept in the original Grade 3 has been expanded with

ample playing material. Completion of this text will assure that the guitar student is well on the way to becoming an accomplished guitarist.

JFK Hal Leonard Corporation

Commonly referred to as the rhythm guitarist's bible, this innovative book is a system of guitar chord formation which maximizes power voicing while minimizing left-hand movement! Originally written by Mel Bay in 1947, this landmark publication was reissued in its original typesetting

in 1973 to become the definitive text on jazz chords in private teaching studios and university jazz guitar departments around the globe. Mr. Bay's practical, analytical approach to the fingerboard produced this comprehensive system for learning full-sounding orchestral jazz guitar chords.

MEL BAYS MODERN GUITAR METHOD GRADE 1 Mel Bay Publications

Written in the tradition of Mel Bay's original Modern Guitar Method, Grade 1. Combines ease of learning

with outstanding music selections. Provides music theory essential to understanding the book's performance demands. Tablature was not used in this book, except in specific situations, in order to encourage the development of standard music notation reading skills. With the large number of extended

range electric basses being used today, an effort was made to include notes for those instruments where applicable. In some instances, a choice of two notes instead of one is provided. These can be played in whatever octave the student prefers or has available on the instrument. Includes

access to online audio.
