This book, designed for students who have already developed a basic competence in German, aims to broaden and improve their vocabulary by providing detailed information on groups of German words with related meanings. It is invaluable as a guide to finding the right word for the context. In order to enhance understanding of the structure of the

German vocabulary, groups of synonyms are organised under German (rather than English) headwords. All entries are accompanied by an example of usage and English glosses and there are two indexes allowing users quickly to locate words in German or English. The book takes full account of register variation, indicating the degree of formal or informal use, and reflects regional usage especially in Austria and Switzerland. It is an essential reference for intermediate and advanced students as well as teachers and other professional linguists seeking access to the finer nuances of the German language.

In this book, bestselling author Martin Limbeck offers us a behind-the-scenes glimpse: Through numerous biographical episodes he chronicles his rise from an average guy to an exceptional sales professional, from a loser to a millionaire, from a nobody on the campground in coal country to a star on the international speaking scene. Candid like no other, he tells of the envy, conflicts, competition, self-sabotage, selfishness, false friends and challenges he had to overcome. A tenacious approach to obstacles in his path is his success formula for a fulfilling life—a heartening example urging readers to forge their own path and never give in. *Spirit Lifters* Open Road Media

In an era of accelerating technology and increasing complexity, how should we reimagine the emancipatory potential of feminism? How should gender politics be reconfigured in a world being transformed by automation, globalization and the digital revolution? These questions are addressed in this bold new book by Helen Hester, a founding member of the 'Laboria Cuboniks' collective that developed the acclaimed manifesto 'Xenofeminism: A Politics for Alienation'. Hester develops a

three-part definition of xenofeminism grounded in the ideas of technomaterialism, anti-naturalism, and gender abolitionism. She elaborates these ideas in relation to assistive reproductive technologies and interrogates the relationship between reproduction and futurity, while steering clear of a problematic anti-natalism. Finally, she examines what xenofeminist technologies might look like in practice, using the history of one specific device to argue for a future-oriented gender politics that can facilitate alternative models of reproduction. Challenging and iconoclastic, this visionary book is the essential guide to one of the most exciting intellectual trends in contemporary feminism.

A literary masterpiece, a reclusive author and a war-time mystery. Gabriel Hirschfelder is a literary icon, his book an

acknowledged masterpiece. He is living out his days in Southend-on-Sea. But fame has come at a price. He fled Vienna shortly before the outbreak of war, and in 1940 he was classified an undesirable alien and sent to a camp with other internees on the Isle of Man. The friends he made there changed his life for ever. Who were Lomnitz and Ossovsky? And who was the fourth man, Harrasser? Was he really deported to Canada or was he murdered? What happened on the Isle of Man to haunt Hirschfelder to his dying day? After his death, a young woman happens to meet his third and last wife and her curiosity is aroused. Her own ex-husband was obsessed with Hirschfelder, so she already knows a little bit about him. But now she feels impelled to make contact with the other women in his life. Her search brings to light many surprises as she uncovers a story with far-reaching implications for Hirschfelder's posthumous reputation. The English Years is a brilliant novel which combines the literary invention of Paul Auster with the European cultural sensibility of W.G. Sebald." Patterns of the Hypnotic Techniques of Milton H. Video is a part of everyday life, comparable to driving a car or taking a shower. It is nearly omnipresent, available on demand and attached to nearby anything, anywhere. Online Video became something vital and independent. With all the video created by the cameras around us, constantly uploading, sharing, linking, and relating, a blue ocean is covering our planet, an ocean of video. What might look as bluish noise and dust from the far outside, might embed beautiful and fascinating living scapes of moving images, objects constantly changing, re-arranging, assembling, evolving, collapsing, but never disappearing, a real cinema. Andreas Treske describes and theorizes these objects formerly named video, their forms, behaviours and properties.

A century after the founding of the Bauhaus--probably the most popular and yet controversial art school in Weimar--its name has become a byword, as well as a myth. Entire generations have been confronted with, and socialized by, the factual, down-to-earth, and functional Bauhaus architecture. Trailblazers, allies, and heirs to modernism are united by an architectural language generally described as "Bauhaus."The Bauhaus legacy, which the photographer Jean Molitor has been tracking around the world since 2009, is presented here in this catalogue. In his art project bau1haus Molitor focuses on the buildings' aesthetics. He sees them as the central element in an epoch-making movement in architecture, art, and design, which evolved from Art Nouveau/Jugendstil into modernism, and his pictures make it possible to perceive this global connection clearly.EXHIBITIONS:BOX Freiraum, Berlin20.6.-28.10.2018Henry van der Velde-Museum, Haus Schulenburg, Gera13.10.-22.12.2018Willy-Brandt-Haus, Berlin15.1.-3.3.2019

In the medieval period, as in the media culture of the present, learned and popular forms of talk were intermingled everywhere. They were also highly mobile, circulating in speech, writing, and symbol, as performances as well as in material objects. The communication through and between different media we all negotiate in daily life did not develop from a previous separation of orality and writing, but from a communications network not unlike our own, if slower, and similarly shaped by disparities of access. Truth and Tales: Cultural Mobility and Medieval

Media, edited by Fiona Somerset and Nicholas Watson, develops a variety of approaches to the labor of imaginatively reconstructing this network from its extant artifacts. Truth and Tales includes fourteen essays by medieval literary scholars and historians. Some essays focus on written artifacts that convey high or popular learning in unexpected ways. Others address a social problem of concern to all, demonstrating the genres and media through which it was negotiated. Still others are centered on one or more texts, detailing their investments in popular as well as learned knowledge, in performance as well as writing. This collective archaeology of medieval media provides fresh insight for medieval scholars and media theorists alike.
