Just what is it about Magenta projects? What makes them so distinctive? There is certainly color galore, texture that you can "feel," and embellishments aplenty. Whatever the style, Magenta projects are built around simple, classic compositions. A card may be straightforward and symmetrical, the design centered on the page, or that same symmetric design may be shifted off-center to create an intriguing pattern. But there is always an unmistakable focal point that, with the addition of rich color and stunning embellishments, results in a grand surprise that delights the senses. This is the essence of Magenta, and the reason why Magenta materials and techniques are favored by paper crafters all over the world. Magenta Style Paper Enchantments presents more than 70 projects that will inspire you to play with color, texture, and embellishments. 20 main projects offering various techniques are accompanied by a materials list and photographic step-by-step instructions, and the others appear in gallery sections in each of the 4 chapters. Nathalie Metivier and Leslie Carola show you techniques like rubber stamping and coloring with a variety of media; embossing and debossing with ink; creating texture with Peel Off's stickers; making three-dimensional constructions; and decorating holiday ornaments and other tabletop items. Try the projects as they are. Then change the palette, shift the focal point, play with the details, find the art of the craft--Magenta Style.

Sneaker Freaker. The Ultimate Sneaker Book! North Light Books

In August 2002, Mike Horn set out on a mission that bordered on the impossible: to travel 12,000 miles around the globe at the Arctic Circle - alone, against all prevailing winds and currents, and without motorized transportation. Conquering the Impossible is the gripping account of Horn's grueling 27-month expedition by sail and by foot through extreme Arctic conditions that nearly cost him his life on numerous occasions. Enduring temperatures that ranged to as low as -95 degrees Fahrenheit, Horn battled hazards including shifting and unstable ice that gave way and plunged him into frigid waters, encounters with polar bears so close that he felt their breath on his face, severe frostbite in his fingers, and a fire that destroyed all of his equipment and nearly burned him alive. Complementing the sheer adrenaline of Horn's

narrative are the isolated but touching human encounters the adventurer has with the hardy individuals who inhabit one of the remotest corners of the earth. From an Inuit who teaches him how to build an igloo to an elderly Russian left behind when the Soviets evacuated his remote Arctic town, Horn finds camaraderie, kindness, and assistance to help him survive the most unforgiving conditions. This awe-inspiring account is a page-turner and an Arctic survival tale in one. Most of all, it's a testament to one man's unrelenting desire to push the boundaries of human endurance.

A first responder's harrowing account of 9/11—the inspirational true story of an American hero who gave nearly everything for others during one of New York City's darkest hours. On September 11, 2001, FDNY Battalion Chief Richard "Pitch" Picciotto answered the call heard around the world. In minutes, he was at Ground Zero of the worst terrorist attack on American soil, as the Twin Towers of the World Trade Center began to burn—and then to buckle. A veteran of the 1993 bombing of the World Trade Center, Picciotto was eerily familiar with the inside of the North Tower. And it was there that he concentrated his rescue efforts. It was in its smoky stairwells where he heard and felt the South Tower collapse. He made the call for firemen and rescue workers to evacuate, while he stayed behind with a skeleton team of men to help evacuate a group of disabled and infirm civilians. And it was in the rubble of the North Tower where Picciotto found himself buried—for more than four hours after the building's collapse.
