From the legendary author of *Things Fall Apart*—a long-awaited memoir of coming of age in a fragile new nation, and its destruction in a tragic civil war For more than forty years, Chinua Achebe maintained a considered silence on the events of the Nigerian civil war, also known as the Biafran War, of 1967–1970, addressing them only obliquely through

his poetry. Decades in the making, *There Was a Country* is a towering account of one of modern Africa's most disastrous events, from a writer whose words and courage left an enduring stamp on world literature. A marriage of history and memoir, vivid firsthand observation and decades of research and reflection, *There Was a Country* is a work whose wisdom and compassion remind us of Chinua Achebe's place as one of the great literary and moral voices of our age.

Kariki's political participation dates from 1952, when he pledged an oath to the allegiance of the Gikuyu tribe, the Mau Mau movement and the cause of African unity. Post-independence, he gradually progressed to being a political insider, serving in the Kenyan African National Union (KANU) and the Kenyan Government. In 1983 he was expelled from KANU - the only political party. It is from this outsider-perspective, and in this climate of fear and uncertainty, without the desired freedom of association and access to political colleagues of the period

of struggle, that he nevertheless here recounts his experiences of half a century in politics. He holds the belief that political evolution is inexorable; and that knowledge about, and reflection on the past is the only way of preventing the tragedy of yet another generation repeating that which they condemned in their predecessors.

Kwani? is arguably Africa's most exciting and varied literary initiative of recent years. Describing itself as 'a magazine of ideas, [that] seeks to entertain, provoke and create?', *Kwani?* commissions and publishes stories, poetry, art and photography 'from all around the African continent and the diaspora'. Rejecting artificial divisions of high and low art and literary snobbery, it is dedicated to the flourishing of literature in Kenya and the of African cultural values. *Kwani?* 01 is widely available outside Africa for the first time. The volume features the writings of numerous prize-winners. It includes the short story, 'The Weight of Whispers', by Yvonne Adhiambo Owuor, which won The Caine Prize for African Writing in 2003. Yvonne Owuor is also a screenplay writer,

and Executive Director of the Zanzibar International Film Festival. Other contributions are from Parsilelo Kantai, who was short-listed for the Caine Prize in 2004; drawings from Gaddo, one of East Africa's foremost political cartoonists; photographs from the photo-journalist Marion Kaplan; and interviews with 'ghetto youths' conducted by the editor. *Politics of Poverty* University of Chicago Press

This book provides the first comprehensive overview of the history of democracy in Africa and explains why the continent's democratic experiments have so often failed, as well as how they could succeed. Nic Cheeseman grapples with some of the most important questions facing Africa and democracy today, including whether international actors should try and promote democracy abroad, how to design political systems that manage ethnic diversity, and why democratic governments often make bad policy decisions. Beginning in the colonial period with the introduction of multi-party

elections and ending in 2013 with the collapse of democracy in Mali and South Sudan, the book describes the rise of authoritarian states in the 1970s; the attempts of trade unions and some religious groups to check the abuse of power in the 1980s; the remarkable return of multiparty politics in the 1990s; and finally, the tragic tendency for elections to exacerbate corruption and violence. *Peeling Back the Mask* Kwani Archive Online

This book provides an overview of the troubled process of nation- building in post-colonial Kenya. Despite distinctive features of the Moi and Kenyatta regimes, late colonial period continuity has been the dominant theme. Different aspects of this continuity are highlighted: the strength of the provincial administration, the central role of ethnicity in shaping political competition, the understanding of the state as a resource, and the ultimately incompatible beliefs held by different communities regarding how power can be legitimately exercised.

Post-war democratization has been identified as a crucial mechanism to build peace in war-ridden societies, supposedly allowing belligerents to compete through ballots rather than bullets. A byproduct of this process, however, is that military leaders often become an integral part of the new democratic system, using resources and networks generated from the previous war to dominate the emerging political landscape. The crucial and thus far overlooked question to be addressed, therefore, is what effect the inclusion of ex-militaries into electoral politics has on post-war security. Can 'warlord democrats' make a positive contribution by shepherding their wartime constituencies to support the building of peace and democracy, or are they likely to use their electoral platforms to sponsor

political violence and keep war-affected communities mobilized through aggressive discourses? This important volume, containing a wealth of fresh empirical detail and theoretical insight, and focussing on some of Africa's most high-profile political figures – from Paul Kagame to Riek Machar to Afonso Dhlakama – represents a crucial intervention in the literature of post-war democratization.

Jürgen Klopp's coaching career began in the German second tier at the unfashionable club of FSV Mainz 05, whom he steered to the Bundesliga for the first time in forty-one years. In 2008, he joined Borussia Dortmund, where he achieved back-to-back league titles and took the club to the UEFA Champions League final. He left Germany for one of the England's most challenging jobs: to manage Liverpool, a once-mighty club that had not managed sustained success since the 1980s. It was not a task for the fainthearted. Anfield, Liverpool's home, is a temple to flamboyant attacking soccer powered by passion. In Klopp, Liverpool finally found a manager who embodied the essence of the club. Klopp is dynamic, expressive, restless, driven – he feels every move and play, every tactical shift, every contact on the field. His eyes betray a wild ecstasy and agony as his team thrives or falls. His game plan demands relentless commitment – the famous gegenpress – and he is one of the great personal motivators in all sport. Raphael Honigstein, author of *Das Reboot* and Bundesliga correspondent

for the Guardian, has interviewed Klopp and followed his career since his early years, and better than anyone knows how to "bring the noise" to his subject.

It is generally accepted that there are only two possible outcomes to the flipping of a coin - heads or tails. In reality, there is also a small possibility of the coin landing on its edge. In this book we explore the tumultuous marriage of a middle aged Kenyan power couple as it is told by different parties in their life. On this riveting journey across the foothills of Mt. Kenya and the chaotic streets of Nairobi, the reader will learn that the truth is not a universal concept, but one that is dependent on the person telling the story.

In 2007 a disputed election in Kenya erupted into a two-month political crisis that led to the deaths of more than a thousand people and the displacement of almost seven hundred thousand. Much of the violence fell along ethnic lines, the principal perpetrators of which were the Kalenjin, who lashed out at other

communities in the Rift Valley. What makes this episode remarkable compared to many other instances of ethnic violence is that the Kalenjin community is a recent construct: the group has only existed since the mid-twentieth century. Drawing on rich archival research and vivid oral testimony, *I Say to You* is a timely analysis of the creation, development, political relevance, and popular appeal of the Kalenjin identity as well as its violent potential. Uncovering the Kalenjin's roots, Gabrielle Lynch examines the ways in which ethnic groups are socially constructed and renegotiated over time. She demonstrates how historical narratives of collective achievement, migration, injustice, and persecution constantly evolve. As a consequence, ethnic identities help politicians mobilize support and help ordinary people lay claim to space, power, and wealth. This kind of ethnic politics, Lynch reveals, encourages a sense of ethnic difference and competition, which can spiral into violent confrontation and retribution.

After the fall of Apartheid, many people in South Africa expected the Kingdom of God to arrive immediately; what they are now realising is that rebuilding and developing the country is not easy and will not bring instant rewards. The Archbishop of Cape Town is deeply involved in this difficult task, encouraging others to work for the

future with hope and intelligence. The author of this text begins by telling his own life story; he then addresses the World Bank, the international community, the people of Britain and South Africa and most of all the church - showing what people are doing and what they can do to rebuild South Africa.
