Reverence for J. S. Bach's music and its towering presence in our cultural memory have long affected how people hear his works. In his own time, however, Bach stood as just another figure among a number of composers, many of them more popular with the music-loving public. Eschewing the great composer style of music history, Andrew Talle takes us on a journey that looks at how ordinary people made music in Bach's Germany. Talle focuses in particular on the culture of keyboard playing as lived in public and private. As he ranges through a wealth of documents, instruments, diaries, account ledgers, and works of art, Talle brings a fascinating cast of characters to life. These individuals--amateur and professional performers, patrons, instrument builders, and listeners--inhabited a lost world, and Talle's deft expertise teases out the diverse roles music played in their lives and in their relationships with one another. At the same time, his nuanced recreation of keyboard playing's social milieu illuminates the era's reception of Bach's immortal works.

Around 20.000 Jews, mostly from Germany and Austria, managed to escape Nazi persecution in the late 1930s and fled to Shanghai, where they found a safe refuge despite the increasing harassment of the Japanese authorities. In the face of difficult conditions, the Jewish refugees tried to arrange for both their material needs and the continuation of their communal cultural life. The 184 sources collected in the present volume document not only these efforts, but also the support of the local Jewish aid committees and other, mostly Jewish international aid organizations. The reactions of Nazi authorities in Germany and their representatives in Shanghai are included as well, as are impressions from the Japanese and Chinese sides. The documents - in German, English, Yiddish, Hebrew, Russian, and Chinese - are annotated, partially translated, and accompanied by introductions, maps, and photographs.
