 Data Structures and Problem Solving Using Java, Second Edition provides a practical introduction to data structures and algorithms from the viewpoint of abstract thinking and problem solving, as well as the use of Java. This text has a clear separation of the interface and implementation to promote abstract thinking. Java allows the programmer to write the interface and implementation separately, to place them in separate files and compile separately, and to hide the implementation details. This book goes a step further: the interface and implementation are discussed in separate parts of the book. Part I (Tour of Java), Part II (Algorithms and Building Blocks), and Part III (Applications) lay the groundwork by discussing basic concepts and tools and providing some practical examples, but implementation of data structures is not shown until Part IV (Implementations). Class interfaces are written and used before the implementation is known, forcing the reader to think about the

functionality and potential efficiency of the various data structures (e.g., hash tables are written well before the hash table is implemented). *NEW! Complete chapter covering Design Patterns (Chapter 5). *NE

A colorful look at getting along! Matilda, the Queen of Colors, has a color for her every mood—she calls for Blue when she's calm, Red when she's wild, and Yellow when she wants to be warm. But when Matilda and Yellow begin to quarrel, not even Blue and Red can stop the argument. And before long everything in the kingdom turns Gray, until Matilda cries tears—bright colorful tears. Jutta Bauer's

simple yet evocative story and pictures convey a rainbow of emotions as The Queen of Colors plays and jousts with her primary subjects—Blue, Red, and Yellow.

A clever, quirky book about one of the world's most beloved contemporary artists - aimed at young readers and written from Kusama's point of view! Yayoi Kusama covers her paintings in hundreds and hundreds of dots. Her dots come off her canvases to cover dresses, tables, walls, and more! She creates mirrored rooms and fills them with glittering balls and lights, until there is an infinity of dots - just like in her paintings. Fausto Gilberti brings movement, life, and whimsy to the true life story of one of the most important contemporary Japanese artists of our time - an artist who is still dazzling museum- and gallery-goers around the globe today.

'A valuable corrective to the fraying narrative of [African] failure.' Foreign Affairs Not so long ago, Africa was being

described as the hopeless continent. Recently, though, talk has turned to Africa rising, with enthusiastic voices exclaiming the potential for economic growth across many of its countries. What, then, is the truth behind Africa's growth, or lack of it? In this provocative book, Morten Jerven fundamentally reframes the debate, challenging mainstream accounts of African economic history. Whilst for the past two decades experts have focused on explaining why there has been a 'chronic failure of growth' in Africa, Jerven shows that most African economies have been growing at a rapid pace since the mid nineties. In addition, African economies grew rapidly in the fifties, the sixties, and even into the seventies. Thus, African states were dismissed as incapable of development based largely on observations made during the 1980s and early 1990s. The result has been misguided analysis, and few practical lessons learned. This is an essential account of the real impact economic growth has had on Africa, and what it means for the continent's future.

Survival is just the beginning in this action-packed middle grade adventure that's Mad Max for kids. Thirteen years ago, the world ended. A deadly chemical called Waste began to spread across the globe, leaving devastation in its wake. Millions died. Cities fell into chaos. Anything the Waste didn't kill, it mutated into threatening new forms. Kobi has always believed he and his dad were the only survivors. But when his dad goes missing, Kobi follows his trail—and discovers a conspiracy even deadlier than the Waste itself. Nonstop action, chilling dangers, and edge-of-your-

seat twists make this gripping, fast-paced read perfect for young readers who love survival adventures like Gary Paulsen's Hatchet and dystopian series like Jeanne DuPrau's City of Ember.

Emma and the Blue Genie Dk Pub

Now in paperback: The New York Times bestselling memoir hailed as “unforgettable” (Publishers Weekly) and “a stunning memoir of cultural trauma and personal identity” (Booklist). At age 38,

Jennifer Teege happened to pluck a library book from the shelf—and discovered a horrifying fact: Her grandfather was Amon Goeth, the vicious Nazi commandant depicted in Schindler's List. Reviled as the “butcher of Płaszów,” Goeth was executed in 1946. The more Teege learned about him, the more certain she became: If her grandfather had met her—a black woman—he would have killed her. Teege's discovery sends her into a severe depression—and fills her with questions: Why did her birth mother withhold this chilling secret? How could her grandmother have loved a mass murderer? Can evil be inherited? Teege's story is cowritten by Nikola Sellmair, who also adds historical context and insight from Teege's family and friends, in an interwoven narrative. Ultimately, Teege's search for the truth leads her, step by step, to the possibility of her own liberation.
