Set in the 1860s, The Leopard tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching forces of democracy and revolution. The dramatic sweep and richness of observation, the seamless intertwining of public and private worlds, and the grasp of human frailty imbue The Leopard with its particular melancholy beauty and power, and place it among the greatest historical novels of our time. Although Giuseppe di Lampedusa had long had the book in mind, he began writing it only in his late fifties; he died at age sixty, soon after the manuscript was rejected as unpublishable. In his introduction, Gioacchino Lanza Tomasi, Lampedusa's nephew, gives us a detailed history of the initial publication and the various editions that followed. And he includes passages Lampedusa wrote for the book that were omitted by the original Italian editors. Here, finally, is the definitive edition of this brilliant and timeless novel. (Translated from the Italian by Archibald Colquhoun.)

The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal

The fundamental mathematical tools needed to understand machine learning include linear algebra, analytic geometry, matrix decompositions, vector calculus, optimization, probability and statistics. These topics are traditionally taught in disparate courses, making it hard for data science or computer science students, or professionals, to efficiently learn the mathematics. This self-contained textbook bridges the gap between mathematical and machine learning texts, introducing the mathematical concepts with a minimum of prerequisites. It uses these concepts to derive four central machine learning methods: linear regression, principal component analysis, Gaussian mixture models and support vector machines. For students and others with a mathematical background, these derivations provide a starting point to machine learning texts. For

those learning the mathematics for the first time, the methods help build intuition and practical experience with applying mathematical concepts. Every chapter includes worked examples and exercises to test understanding. Programming tutorials are offered on the book's web site.

Se in precedenza l'arte di strada veniva vista come un'espressione di vandalismo e di inciviltà giovanile, oggi la Street Art viene considerata una vera e propria forma d'arte. Molteplici sono le motivazioni che spingono molti giovani a condividere questa forma artistica: per alcuni è una sorta di protesta contro le Istituzioni imperanti, contro il capitalismo e la proprietà privata, per altri è una forma di condivisione pubblica, aperta a ogni strato sociale senza limiti d'età, quindi contro la mercificazione, l'esclusivismo e immortalità dell'arte. Street Art Invasion, di Agnese Tonelli, nasce per divulgare l'idea di autonomia e di spontaneità dell'arte. La sua applicazione in spazi aperti crea un connubio tra l'artista e l'urbanizzazione, al fine di trasformare i luoghi, donando loro unicità e bellezza e divenendo fenomeno culturale di grande rilevanza sociale. Agnese Tonelli, con un linguaggio semplice ma perfettamente esplicativo, rende l'argomento notevolmente interessante, in grado di suscitare curiosità. L'apporto di numerose immagini e la condivisione del pensiero artistico di alcuni esponenti del movimento completano e impreziosiscono il testo. Agnese Tonelli classe 1986, appassionata di semiotica dell'arte e all'universo che ruota attorno all'arte pubblica e urbana contemporanea, ha studiato all'università di Bologna laureandosi al Dams Corso Arte e conseguendo un Master in Museologia, Conservazione e valorizzazione dei beni culturali. Dopo la quinquennale esperienza presso una galleria espositiva di Venezia, inizia a lavorare presso un importante Museo del bolognese.

In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh “Boom” Trenchard of Great Britain and William “Billy” Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision-that command of the air is all important in modern warfare-has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts - How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony,

he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

And you will, too, once you've picked up Gary P. Nunn's new memoir of the life and times of this true Texas original. As one of the founding fathers of the progressive country music scene in Austin, Texas, Nunn helped change the face of popular music. His anthem “London Homesick Blues” was the theme song of the wildly popular Austin City Limits—the longest-running music series in American television history—for over two decades. His

hit songs, such as “The Last Thing I Needed First Thing this Morning” and “What I Like about Texas,” have been recorded by artists from Jerry Jeff Walker and Michael Martin Murphey to Rosanne Cash, Willie Nelson, and most recently, Chris Stapleton. *At Home with the Armadillo* is a unique and revealing debut work that showcases Nunn’s exceptional abilities as a storyteller. His obvious songwriting talents have translated naturally into honest, captivating prose as he recounts the story of his life from a humble childhood in rural Oklahoma to playing with members of the famous Crickets to his move to Texas and into the burgeoning Austin music scene of the early 1970s. The story of this extraordinarily talented musician will captivate a broad audience. It’s a book for lovers of country and rock-and-roll music, students of the history of those genres, people who grew up in Austin or Texas in the sixties and seventies, and those who wish they had! This is a heartfelt narrative that doesn’t hold back as Nunn reflects about the good times and the bad of a young musician on his way to a future that wasn’t always clear. As much as this is the story of Nunn’s life, *At Home with the Armadillo* is also an homage to Texas, to the rich and star-studded history of Austin music, and to all the musicians and other personalities Nunn met on their respective ways through the music world of the last five decades. Personal stories of musicians like Murphey, Walker, and Nelson are integrated with tales of the festivals, clubs, and venues from Los Angeles to Nashville where their careers and Nunn’s were made. Nunn shares wild adventures in Mexico, his personal encounter with the Viet Nam War, and the glory days of Austin when the “Live Music Capital of the World” was coming into its own. Whether you’re a country music fan of any age, a cosmic cowboy, an aging hippie, or anyone who wants to know how it all happened, this book will take you back to the days. To the days of the Armadillo World Headquarters—where, as Nunn states, “It’s been said that our music was the catalyst that brought the s\*\*\*kickers and the

hippies together at the Armadillo.” Nunn notes, “I have been blessed with good health, and I have driven over two million miles alone without an accident—knock on wood! ‘Success is survival,’ as Leonard Cohen told me many years ago.” To readers of *At Home with the Armadillo*: We’re lucky to be along for the ride!

As often, most gracious ladies, as, taking thought in myself, I mind me how very pitiful you are all by nature, so often do I recognize that this present work will, to your thinking, have a grievous and a weariful beginning, inasmuch as the dolorous remembrance of the late pestiferous mortality, which it beareth on its forefront, is universally irksome to all who saw or otherwise knew it. But I would not therefore have this affright you from reading further, as if in the reading you were still to fare among sighs and tears. Let this grisly beginning be none other to you than is to wayfarers a

rugged and steep mountain, beyond which is situate a most fair and delightful plain, which latter cometh so much the pleasanter to them as the greater was the hardship of the ascent and the descent; for, like as dolour occupieth the extreme of gladness, even so are miseries determined by imminent joyance. This brief annoy (I say brief, inasmuch as it is contained in few pages) is straightway succeeded by the pleasance and delight which I have already promised you and which, belike, were it not aforesaid, might not be looked for from such a beginning. And in truth, could I fairly have availed to bring you to my desire otherwise than by so rugged a path as this will be I had gladly done it; but being in a manner constrained thereto, for that, without this reminiscence of our past miseries, it might not be shown what was the occasion of the coming about of the things that will hereafter be read, I have brought myself to write them.
